Contents

Hunt of a Lifetime is a book for outdoorsmen that will encourage and challenge them to surrender control of their lives to Jesus Christ. Weaving hunting and fishing stories together, the author whets their appetites to go on the ultimate hunt—connecting with their Creator.

The first part of the book inspires and equips the reader to surrender his life to Jesus, while the second part is a 30-day devotional that helps the reader to learn to connect with God through prayer.

“Reading *Hunt of a Lifetime*,” says Steve Chapman in the Foreword, “can help guide the heart to life-changing spiritual insights. Some are revealed through the accounts of timeless biblical characters who were outdoor types, and some come from Scott’s personal collection of experiences as an outdoorsman.”

A great gift for any outdoorsman in your life.

About the Author:

Scott B. Lemasters is a 33-year veteran of the U.S. Coast Guard. Born in West Virginia, Scott grew up on the Chesapeake Bay in rural Matthews County, Virginia. He has enjoyed tours of duty in Alaska, Louisiana, Virginia, Maryland, Kentucky, Michigan, and Florida. Of course, this has allowed for plenty of hunting and fishing opportunities!

From tiger fish on the Zambezi River, to red salmon on Kodiak Island, to walleye on the Great Lakes, Scott offers a wealth of experiences to share. He is also blessed to have pursued a wide variety of big-game animals with “do-it-yourself” hunts for Dall sheep, coastal brown bear, moose, mountain goat, black bear, and white-tail deer. One of his proudest outdoor moments was guiding his dad for coastal brown bear on Admiralty Island, Alaska. That said, watching all three of his children—Catherine, Sarah and Elijah—catch their first fish is a very close second.
